#FolkTheRock

«RUSSIAN STYLE» Folkestra is a team of more than twenty young musicians and various winners of international competitions that fuse traditional Russian folk instrument sound with entire world music heritage. The heart of the orchestra is the Balalaika. Five different forms of these national music instruments are presented in our orchestra: from the especially made-to-order electro-balalaika to the grand contrabass-balalaika the size of a motorcycle.

Since our unique orchestra has been established (2013) we have performed numerous concerts including «What Else Men Sing About?» and «Uma2rman. 10 years». At both the «Wild Mint» and «Feel Russia» festivals we were announced to be The Discovery of the Year. We have toured Europe and Asia, presenting our unique show in the Argentine Venice and a solo program «Rock the Folk» in the famous Variety Theater in 2014 and «Folk The Rock» in Crocus City Hall in May 2015; played concerts on board of an aircraft and on the observation platform of the Ostankinskaya television tower thus setting the record for the «highest» concert in Europe.

Now not only folk versions of classical works and rock hits such as Nirvana, Blur, The Offspring form our repertoire but we also present original compositions bursting with the rock-and-roll energy on the traditional national instruments!
